the use of antidepressants like zoloft is sometimes seen as a form of escapism
both sides want to reduce risk, cut their losses, and move on
the hormones in the pill also prevent pregnancy by thickening a woman’s cervical mucus
people often overdose alone, bergen county prosecutor john molinelli noted, and its hard to trace the drugs because the person who can tell you is dead.
let him know that you love him and will go to any extremes to help him if he is clean
